

# **SISCRA Willow Creek Campground**

## **Sanitation Engineer Job Description**

The position of Sanitation Engineer at SISCRA's Willow Creek Campground begins a few days prior to park opening day and ends on park closing day. (Dates change each year and they will be announced annually). The position requires two teams who will each work four days and be off four days. Bathrooms are to be thoroughly cleaned each morning with an afternoon or evening check to verify there is sufficient hand soap, paper towels, and toilet tissue to last until the morning cleaning and to check that the facilities are satisfactory and functioning properly. A salary will be paid monthly based on experience. In addition, a RV parking space and holding tank dumping will be provided. Work days must be a mutual agreement between both teams. SISCRA provides all cleaning supplies.

### ***Duties of the Sanitation Engineer:***

1. Clean all restrooms at least once each day and disinfect all areas to prevent spreading of germs or disease.
2. Disinfect and sanitize toilets and shower stalls.
3. Bag all waste paper and dispose in campground garbage containers.
4. Replace toilet paper and paper towels as needed.
5. Mop restroom floors using a disinfectant.
6. Clean the areas around the entrance to the restroom as needed to present a pleasant appearance.
7. Report any needed repairs to the gatekeepers or a board member.
8. Report cleaning supplies when restocking is needed.
